# Canopy PLUS System

*The Bodies of Tomorrow Can Be Built Today*

### Other design features and options of Astoria's Canopy Plus System include:

- Steel or Aluminum floor
- Keyless Electric or Gang Locks
- Small, rear access door on rear vertical compartment
- Aluminum treadplate Step Bumper with recess
- Side Fender Panel is a solid One-Piece which acts as a Gusset to prevent cracking
- Variable compartment depths up to 24" deep
- Hinges are heavy duty stainless steel with stainless steel bolts
- Latches are specially designed, stainless steel rotary two-stage
- Adjustable strikers with stainless steel plates
- Nuts are self-locking
- Doors are double laminated, hollow core, reinforced, warp-proof and keyed alike
- Automotive bulb gasket door seals for weather-tight compartments
- Fiberglass is 30-35% lighter than steel, allowing you to reduce the weight while maintaining strength, durability and long-lasting appearance

Could this be the body in your future? The revolutionary fiberglass **Canopy Plus System** from Astoria Industries is loaded with new designs for a distinguished look, and ready for work on any type of job.

The **Canopy Plus System** is featured here on a 4-door crew cab, 60" CA chassis, dual rear wheel truck, with an Astoria Spring Mount (see "Why Spring Mount" at [www.astoriainc.com](http://www.astoriainc.com).)

The number of storage configurations can be maximized with a minimum investment by taking advantage of Astoria's specialized interior options and accessories that simplify any job.

Work while standing up inside this sturdy fiberglass canopy. The interior height can be approximately 70" high.

Exclusive to Astoria is our Variable Molding System, which allows you to choose compartment depths of 12" up to 24".

Imagine how quickly and easily your equipment can be reached with this heavy duty 10 pullout drawer cabinet system. The drawer depths are determined by you!

The horizontal compartment has a fixed shelf with dividers that create compartments underneath. A variety of work-ready interior configurations are available to keep you organized.

The Curbside boasts an expanded metal shovel basket, steel tank holder for oxy/acetylene tanks, small parts pullout drawers, and adjustable fiberglass shelving.

Inside, behind the cab, is an aluminum treadplate transverse compartment that even includes a top opening lid. Full length shelves on both sides, dome lighting and plenty of headroom make this a comfortable, convenient place to work.

*"Designed to Work...Built to Last."*

**Astoria Industries of Iowa, Inc. backs all of its products with a 5 YEAR LTD. WARRANTY.**
